Supplemental Examiner's Answer

In response to the remand by the Board of Patent Appeals and Interferences, The Board was correct in pointing out that the examiners Answer inadvertently omitted a specific recitation of the grounds of rejection of claims 35-39, 61 and 62. As stated in the Office actions of 5-29-02 and 10-9-02:

Claims 35-39 are rejected under 35 USC 103(a) as being unpatentable over Krishnaswamy, Japan (804), Vale or Curran.

Each reference teaches the claimed structure for the specific materials. However, selection from among known suitable materials has long been held to be within the skill expected of the routineer. Each of the specific claimed materials is already well known as a substrate, piezoelectric transducer or electrode material (official Notice taken). Thus selection of any of these materials would have been obvious to one of ordinary skill in the art.

Attached hereto are initiated copies of the 1449 forms submitted by applicant on 2-8-01 and 7-2-01.

This application should now be in proper condition for return to the Board of Appeals for consideration of the issues on appeal respectfully submitted.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark O. Budd whose telephone number is (571)272-2019. The examiner can normally be reached on Monday-Thursday from 6am to 4pm.
